Works Stream
When you see bright minds working at their peak, thoughts seem to flow easily. Freed by the sparks of inspiration, greater forces appear to be at work. By inspiring free movement in a space, people will think and feel more connected. Everything flows smoothly when real collaboration is encouraged. Creating directions through flowing patterns, Works Stream from Works Series, is the smarter way to create quiet, comfortable spaces where the smartest thinking and work-streams can come together.

The new Works Series has one vision, to work smarter together for every space. Every detail of Works Series works smarter to give greater versatility and drive value at the same time.

Combined with your ideas, each floor can create +Positive spaces™ which help their users thrive by letting them live, work, learn and regain inspiration every day. Each Works Series tile will prove to be the smart move for our planet’s future too. As with every Interface product, they are Carbon Neutral, so they help you lower your carbon footprint with one positive step.

Specifications

- **Style Code**: 2392 Pattern 000
- **Product Definition**: Tufted Textured Loop
- **Yarn/Fibre**: BCF Nylon Type 6
- **Colour System**: 100% Solution Dyed
- **Machine Gauge**: 1/12
- **Pile Thickness**: 2.5mm +/- 0.5mm
- **Total Thickness**: 5.5mm +/- 0.5mm
- **Tile Size**: 50x50cm
- **Area of Use**: Commercial – General Use
- **Lifetime Antimicrobial**: Intersept™
- **Soil/Stain Protection**: Protekt®
- **Installation Methods**: Ashlar, Brick, Monolithic, Quarter Turn

Production specifications are subject to normal manufacturing tolerances and may be changed without notice. Slight variation in colour among different production lots are normal and should be considered in the overall installation plan. Products covered by manufacturer’s written warranty only. All other warranties, including without limitation any implied warranties of merchantability or fitness for particular purposes, are hereby disclaimed. Contact your representative for written warranty information. Recycled content calculations are based on historical averages by total weight of the product for backings. Yarn/Fibre recycled content calculation excludes backing. We update our recycled content information and other environmental data regularly to reflect changes and advancements in our technology.

All Interface manufacturing facilities in the Asia Pacific region maintain registration to ISO 9001 Quality Management Systems and ISO 14001 Environmental Management Systems.
As part of Interface’s Mission Zero promise to eliminate any negative impact on the environment by 2020, we always consider the environment impact of every creative, manufacturing and building decision. This sample book is printed on recycled paper and with soy based ink. Twenty four virgin trees were saved from our use of 1725kg of recycled paper in the production of 5000 sample books. Energy intensity also decreased and greenhouse gases were reduced. The other reductions came from waste water and solid waste. Through our sample reclamation program, we help keep sample materials out of landfill by re-using them until it is time to recycle these sample materials.
